Subject: Reefer export Booking No./Cntr no
LOI For Electrical / Monitoring Costs

To Whom It May Concern;

Please be informed.

By accepting captioned booking no for export reefer, we are aware that there is no any given free time/hours for electrical and monitoring costs.

For early delivery/gate-in of our export reefer inside terminal, by not waiting for 6-hours before Vessel ETC (estimated time of completion) we are amenable to absorb electrical and monitoring costs under shipper's account starting from reefer plug-in to plug out inside terminal to load onboard Vessel for whatever reasons, such as; Vessel delay arrival/departure, delay berthing, skip calling, rebooking, slow operations, port congestion etc...

Thank you.

Sincerely,
