

Attention: ALL EGP Clients

In line with our commitment to embracing modern and digital technologies, EGP Management is pleased to introduce **SMARTLINK**, our new online system designed to streamline and enhance the handling of pre-advise concerns for your **EMPTY** and **LADEN** containers.

To help you better understand this new process, we've attached a PDF guide for your reference. We highly encourage you to **register on the SMARTLINK system** as soon as possible.

Please note that **starting May 6, 2025**, we will **no longer accept pre-advise requests via email**. This transition will allow you to become more familiar with the new system and ensure a smoother and more efficient experience moving forward.

Towards Global Online digitalization, **effective May 16, 2025**, EVERGREEN will adapt new SMARTLINK Online System to cater all entries for Export laden and Empty Pre-advise.

Further to this, current process of sending Pre-Advice Form thru e-mail attachment will no longer be applied for ICTSI, Subic, ATI South and ATI Batangas. Below email addresses will be deactivated by May 16, 2025:

- northharbor.egp@gmail.com
- phzubic.egp@gmail.com
- southharbor.egp@gmail.com

On the other hand, EVERGREEN's Clients (i.e. Shipper/Representative, Consignee/Representative, Brokerage, Forwarder, and Trucker) are required to sign up to SMARTLINK Online System by using below link:

<https://brightpointtechnologies.com.ph/csp/smartlink/web/login.csp>

Attached SMARTLINK Client Sign UP guide

Some important reminders:

1. We encourage clients to start using SMARTLINK Online System as soon as sign up is completed (prior to May 16, 2025 implementation).
2. By providing all entries/data (export laden and empty pre-advise) on SMARTLINK Online System, you confirm that all the information is accurate and verified. Always double-check the details to avoid any issues and/or penalties.
3. Client walk-ins will no longer be entertained.

For issues and other concerns, you may contact the following:
